ABOUT ME

Dedicated and motivated B.tech (cse) student at @MIT Moradabad with a passion for Frontend Development. Seeking an opportunity to apply my skills and knowledge in a professional setting to contribute to a dynamic team and grow as a Frontend Developer and I am always ready to have new experiences, meet new people, and learn new things. I find the idea of creating value for people and impacting the world through my work gratifying

PROJECTS

- **MY Personal Portfolio**
  Aug-2023
  Key responsibilities:

  - Tells more about me to the others.
  - provide the facility to tell the user deeply about my project and services.
  - Helps me to keep updated with new technology.
  - Provides all kinds of contact details to the user, with the help of which he can contact me as soon as possible.

- **SAHARA: Strategic Aid Network for Keeping All Territories Safe**
  Oct-2023
  Key responsibilities:

  - Provide real-time alerts and notifications about impending disasters or emergencies. Send notifications to users in affected areas, allowing them to take immediate action.
  - Integrate weather forecasts, radar data, and environmental monitoring information. Predict the potential impact of weather-related disasters.
  - it helps to visualize real-time data on affected areas, shelter locations, and demands for various products. It provides a user-friendly interface that can be accessed by anyone, including NGOs, disaster management authorities, and individuals. The application provides a single platform for all stakeholders to collaborate and share information for effective disaster management.
